## **Alberta Poultry Industry Working to Mitigate Risk of Avian Influenza**

**[Edmonton, AB]** – The Alberta Poultry Industry Emergency Management Team (APIEMT) is aware of 18 confirmed cases of Avian Influenza (AI) on commercial poultry farms, and 9 confirmed cases of AI on non-commercial farms, in the following counties in Alberta:

- April 6, 2022 – Mountain View County, Alberta (poultry flock)
- April 6, 2022 – Mountain View County, Alberta (poultry flock)
- April 6, 2022 – Ponoka County (poultry flock)
- April 8, 2022 – Kneehill County, Alberta (poultry flock)
- April 9, 2022 – Paintearth County, Alberta (poultry flock)
- April 10, 2022 – Wetaskiwin County, Alberta (poultry flock)
- April 11, 2022 – Camrose County, Alberta (poultry flock)
- April 12, 2022 – Mountain View County, Alberta (non-commercial poultry flock)
- April 14, 2022 – Kneehill County, Alberta (poultry flock)
- April 14, 2022 – Warner County, Alberta (poultry flock)
- April 14, 2022 – Mountain View County, Alberta (non-commercial poultry flock)
- April 15, 2022 – Cardston County, Alberta (poultry flock)
- April 20, 2022 – Kneehill County, Alberta (poultry flock)
- April 21, 2022 – Wetaskiwin County, Alberta (poultry flock)
- April 21, 2022 – Sturgeon County, Alberta (non-commercial poultry flock)
- April 23, 2022 – Rocky View County, Alberta (non-commercial poultry flock)
- April 24, 2022 – Camrose County, Alberta (poultry flock)
- April 25, 2022 – Camrose County, Alberta (poultry flock)
- April 28, 2022 – Vermillion River County, Alberta (non-commercial poultry flock)
- April 30, 2022 – Camrose County, Alberta (non-commercial poultry flock)
- May 1, 2022 – Two Hills County, Alberta (non-commercial poultry flock)
- May 1, 2022 – Wainwright County, Alberta (poultry flock)
- May 1, 2022 – Lethbridge County, Alberta (poultry flock)
- May 5, 2022 – Newell County, Alberta (poultry flock)
- May 11, 2022 – Two Hills County, Alberta (non-commercial poultry flock)
- May 11, 2022 – Two Hills County, Alberta (poultry flock)
- May 11, 2022 – Foothills County, Alberta (non-commercial poultry flock)

Each infected premises has been placed under quarantine. The Canadian Food Inspection Agency (CFIA) has established a Primary Control Zone (PCZ) around 20 of the infected premises thus far, to restrict movement in the area.

The APIEMT is working closely with the CFIA and Alberta Agriculture, Forestry and Rural Economic Development, to expedite the investigation of suspected cases and mitigate the potential risk of further spread of AI in Alberta. At this time the cause of the confirmed cases of AI is unknown, but is believed to be linked to migratory birds, as has been the case recently elsewhere in both Canada and the United States.

Alberta poultry farmers and industry partners are implementing enhanced biosecurity measures to protect their flocks and safeguard the supply of fresh, local eggs and poultry products. The APIEMT will share additional details as they become available.
